

A Message from the Chancellor

If you are considering *volunteering* or becoming an *academic intern* with us at the **ICGS**, I am truly grateful. I know in these difficult times we are experiencing in the world, with a global financial crisis, high unemployment, issues like climate change, terrorism and global catastrophes, it is sometimes hard to look at the sunny side of life. But, this is what I personally try to do each and every day of my life no matter how bad the storm clouds which have gathered before me.

Therefore, my idea of an *effective intern* is a person looking to explore and create, but not just follow or absorb. If you have ideas, talents and dreams than I believe you have chosen the right place to conduct an internship. In addition, my sense of an *effective volunteer* is a person who doesn't need a lot of guidance, adapts quickly to challenges and inspire others through their own person sacrifices and achievements. If that sounds like you, than get ready to roll up your sleeves, find out where the needs are greatest, and apply yourself accordingly.

I promise all of you that your experiences with the ICGS will be unique and quite different than any other *internship assignment or volunteer opportunity* you might have considered in the past. However, I must warn you that the **ICGS** is running on a shoe-string budget, because we don't accept money from governments, corporations or accept grants from foundations. We rely solely on the *support of private donors* and that means we may not be able to offer you the type of internship or volunteer opportunity ultimately you may be seeking. Chose carefully!

Lastly, I want to tell you that I love nature, love life, and most certainly **I LOVE YOU!** I don't need to know you as a person to love you, since I already know we are ONE in the Spirit. That means I RESPECT YOU, I honor you, and I believe my students are *my greatest teachers*. So let's get to work on *human transformation & transform the world for real!*

With Great Respect & Love, Adisaji

VOLUNTEER OPPORTUNITIES & INTERNSHIP GUIDEBOOK

"Transforming Lives from Within & Without"

In this Guidebook:

- ⇒ **Volunteering with the ICGS to Help Make Global Transformation a Reality!**
- ⇒ **Current Volunteer & Internship Opportunities**
- ⇒ **Applications**
- ⇒ **About the ICGS**
- ⇒ **A Message from the Founder**

U & Me=Together!

VOLUNTEER WITH THE ICGS & HELP MAKE GLOBAL HUMAN TRANSFORMATION A REALITY!

The **Ikologiks Center for Global Studies** is much more than a “think-tank” for human transformation, or even an educational institution. The ICGS is about civic activism, social change, spiritual growth & bringing about not a “new world order” based in materialism, but a “**nu human transformational coherence**” centered in **HUMAN POTENTIAL!** You can be an instrument for creating a different type of globalization, a different kind of world, a different level of consciousness. **U & ME = TOGETHER!**

One Race, the Human Race!

One Religion, It is LOVE!

One Truth, Know Thy Self!

One Path, All That Is & Isn't!

IKOLOGIKS CENTER FOR GLOBAL STUDIES

About the ICGS

The **Ikologiks Center for Global Studies** was founded & incorporated as a non-profit educational organization (NGO) in April 1989, city of Washington, DC USA. We are not "tax-exempt" as per IRS 501 (c.3) rules since we do not wish to acknowledge the jurisdiction in "rule of law" of any nation state, in regulating the terms of our work, as we affirm fully the notion of planetary consciousness. However, we do maintain a policy of *full transparency & disclosures* to our "global partners".

The founder of the ICGS, *Adisa Maina Omar* aka as *Roger M. Davis* (center) is now *Chancellor of the ICGS*. He is a graduate of *Cornell University* & attended the *Graduate School of International Relations—Korea University*. The co-founder, *Glenn M. Gales* (left) is currently serving as *Executive Secretary*. (Right) A former student in South Korea (ROK) *Ki Se Kwon* joins with *Adisa & Glenn* for a fun moment in Daegu City railway terminal ROK, before their departure in 2005.

Human Transformation is a Birth-Right!
Your Potential is Unlimited!

We Are the Generation that Can Alter the Course of this Millennium!

It is estimated that of the 100 top world economic entities, 49% of them are the existing nation states. But, **51% & growing** are **CORPORATIONS!** This means, plain & simple that no longer are sovereign "nations" whether democratic, totalitarian, dictatorships, capitalist, socialist, or plutocracies are calling the "shots" anymore. Private corporate & banking interests are determining the course of human history. LET YOUR VOICE BE HEARD! VOLUNTEER OR BECOME A "GLOBAL PARTNER" TODAY! — WWW.IKOLOGIKS.ORG

Academic Internships with ICGS

An Internship Experience

An internship can become a powerful means to boost your "real world" experience prior to graduation from High School or College, or entering the job market. Today most internships with NGOs or Corporations center on placing you in an environment where sometimes all you do is deliver mail, attend staff meetings, do projects that have little importance such as collate, stuff envelopes and data entry.

Not so, with the ICGS. Our goal is not on "human resource" development since we don't consider human beings (*much less nature itself*) to be a consumable & exploitable commodity destined for "wage slavery." Instead, we believe in the idea of "human potential". Meaning each person (prospective intern) should be given opportunities and experiences to explore their highest potential. Thus, when you intern with the ICGS we will not "plug you in". But, instead ask *where you want to be, what goals you wish to accomplish and what it is you wish to design, create or demonstrate*. The rest is up to: **U & Me = TOGETHER!**

Stipends, Scholarships & Certificates

The Intern chosen will receive a small stipend to offset their transportation costs, perhaps meals and buying supplies or books. It is **NOT** a salary or should be considered as payment for work or service that is offered by an Intern for the duration of their contract.

In addition, we award "one-time" tuition scholarships at the end of each year for selected Interns with admirable qualities and efforts. These awards are sent to the institution of their choosing for disbursement.

We also offer substantial discounts on ICGS courses that an Intern wishes to enroll under during the time of the Internship, or up to two years following the end of an internship.

Lastly, upon completion of the Internship assignment we issue a framed **Certificate of Completion** to each of the respective Interns.

Current Opportunities—Interns & Volunteers:

Animators, Photographers, IT, Webdesigners, Marketing, Media Specialist, Promotions, Field Coordinators, Civil Engineers, Architects, Musicians, Legal, Organic Farming, Accounting, ESL.

VOLUNTEER

Why You?

Okay, everyone has been asking you to volunteer for this cause or another these days. Some say they are going to change the world, end poverty, stop global warming, or others say they are going to change you inside to attain *enlightenment*. But, we say simply "U & ME = TOGETHER" (Harambee) as the sole means by which *real change* in the world can take place.

The ICGS is calling for a transition from the current age of materialism & INFORMATION TECHNOLOGY (IT), to decidedly bring about a new era of TRANSFORMATION TECHNOLOGY (TT). We aim, with your help to usher in a "*silent revolution*" that will alter the current trajectory of human consciousness from being increasingly materialistic to one of **Coherence & POTENTIALITY!**

Volunteer Requirements:

To become a volunteer with the ICGS you must be 18 years or older (*younger with parental consent*) and have an open mind & heart for making change in the world. Yes, we **WELCOME SENIORS, too!** Any skill, profession, or talent is needed.
